

Asthmatic Bronchitis.

Bronchitis

Tracey, Gromes - Gys

My Daughter is suffering from Bronchitis for the last 5 yrs and constantly she was on antibiotic & steroids, we used to nebulize her very often, our neighbour Mrs Desai referred to Dr. Sunil Mehra and we started her medicine over here, from the month of March 2008, 7 months have passed and she is 75% BETTER.

When the treatment started we had to give complete attention like our her diet and medicine, we took lot of time and she is much, much better.

We learnt a lot from this clinic e.g. Diet, proper timing of medicine Doctor's advice;

Here the technique of treatment is very good, you follow the technique and advice your child will be cured faster.

Visit to the clinic is once a month, Homoeopathy as a healing science is slow and steady wins the race.

Doctor is very kind, he gives personal care and attention.

Compound is very good listening, caring and understanding.

You have any problem visit Dr. Sunil Mehra your problem will be solved
