I, Joti Singh mother of Yash, met Dr. Mehra even before Yash was born during the treatment of Yash's elder sister and we had decided that the new baby who will take birth will be entirely in the care of Dr. Mehra.

Yash came to Dr. when he was 3 months old and at that time we decided that we will keep him away from any kind of antibiotics or allopathic medicines.

During the period of 3 yrs I ~~was~~ took care of Yash as the doctor said, and did not give him any antibiotic or allopathic medicines except ibuprofen (for fever).

Now he is 3 yrs old and thanks to the Doctor that we have together achieved our goal — of saving my son from allopathic medicines.

Thanks to the Doctor.

Joti Singh.
