

Name : Anushka Sinha.

Mob:

Age : 1- $\frac{1}{2}$ Yr.

My daughter Anushka was suffering from multiple diseases like cold, cough, High fever, loose motion etc. The problem started ~~when~~ when she was six months old. We tried so many allopathic treatment but there was no permanent solution. Every alternate week she fell sick. We were tired of giving her antibiotics because of that she became very weak. Her appetite also became very low. Then we came to know about Dr. Sunil Mehra and we decided to treat Anushka under his supervision. On the very first day, after ~~to~~ talking to Dr. Sunil Mehra, we realised ~~that~~ that we came to the proper place and ~~was~~ my daughter can be cured totally. Within one month his guidance and of course medicine did miracle. Anushka's food habit has changed and she started taking home made food. ~~at~~ ~~the~~ All the readymade food like cereals, lactogen stopped within one month.

Moreover, I ~~learned~~ learned a lot from him about how to feed and how to keep the baby healthy. One must follow his all words to get fast result along with Medicine and this is the main key to get rid of diseases, and to keep your baby healthy.

After the treatment of 1 yr. now my ~~big~~ baby is much much better than the situation I came to here.

In future, if any of my family members would have any problem, I will surely come to Dr. Sunil Mehra. Thanks a lot.

Regards,

Mousumi Sinha.
