

Aastha Arora. (3 1/2 yr old) [REDACTED] now.

Name of Disease - (1) Cold (cough (frequent) & fever)
(2) skin allergy.

I, Mother of Aastha, a firm believer of homeopathic treatment, provided if disease is diagnosed rightly. I see Dr Mehrotra has apt skills to diagnose the treat illness & gave right treatment & advise.

Availability of doctor on phone, sans personal visit @ any time is commendable. Anytime trustworthy doctor & his advise.

To share, we are always happy to consult him for anything for ^{our} child.

Genuine concern & care shown helps us to build up this confidence further.
