Lucknow

I had chronic sinusitis since last 30 years. The doctors advised me to go for operation at the earliest. As my son was in Mumbai, I had an opportunity to visit Dr Mehra and explained my problem to me. I have now taken his treatment for more than 1½ years. I was getting medicines on a weekly basis at my residence - Lucknow. I had also opportunity to visit Dr Mehra 2-3 times in person at Mumbai.

I feel now I am 75-80% cured as is evident from X-ray of 28/2 and the symptoms and problem getting mitigated during treatment.

I had two major petes which I followed religiously  
 1. Meethi Cheese 2. Icecream, cold drinks etc.

Dr Mehra respects his patients and promptly replies phone calls / queries.

I also found that compared to other branches of treatment, his homeopathic treatment is very satisfactory and the patient has to cooperate by taking medicine on a regular basis and doing yoga as suggested.

The doctor is good, considering no way factors. One has to be little patient as regards to duration of his treatment. Sometimes it may appear costly but it is within limits and probability of getting cured is very high. I wish the best for the doctor and his treatment.
