

Hairfall.

25/5/15.

Sunil Yadav

Tel No - [REDACTED]

This is Sunil S. Yadav, I am 23 and I had been under treatment for last 5 months.

This is not the first time I had consulted a doctor for hairfall, prior to Dr. Mehra, I had been under treatment for like 8-10 months (English medicines) at that point of time the medicines showed it's impact but as soon I stopped taking medicine, I fall in a same pit again.

So this time I tried Homopathy and upto now I am satisfied how things are going.

Dr. Mehra suggested me various thing except medicine which though sounds like barrier or obstacle as it's tough to follow in daily life, but that's the 'Mantra' to stay fit. As Dr. Mehra made me to understand the root cause of hair fall or thinning of hair was excellent and his suggestion's about meal and "do & don't's" made brought bigger difference than medicine that's certainly what I believe right now under his treatment.

As per percentage of improvement is there I can say it's more than 80%, and I am hopeful to meet the ^{100%} ~~percentage~~ mark in quick span.
