

Hyperprolactinemia.

Vipula N. Vadodaria Tel no [REDACTED]

Name of Disease - Hormonal problem.

Duration of illness - 8-9 months.

Duration of treatment - 6 months.

Recovery - 100%.

I was suffering from this condition for few months. Initially I was taking another treatment but the condition worsened and then I came to Dr. Mehta and within few months I got the result. The recovery was speedy. And though there were some problems in following the Do's and Don'ts and changing life style but then I got used to it which helped me a lot.

The treatment and approach was professional and friendly. Now I am 100% cure and very happy. I now believe homeopathy can heal diseases.

Also the compounder's service is good.

Also while communicating through phone calls I was pleased with the response.

All in one I am truly happy.
