

Herpes Zoster

Ashish Tandon

Duration of illness - 2 weeks

Asthma \rightarrow 70%

Duration of treatment - 1 month

Gout \rightarrow 50%

Percentage Recovery - 90%

~~Role of Patient~~

I am under Dr. Mehra's ~~treatment~~ care for other diseases (asthma & gout), for which I am relatively trouble free most of the time. I got the initial diagnosis for Herpes Zoster from Dr. Mehra when I noticed a burning sensation in my left arm & he immediately started me on the ~~same~~ medication for it. I had some pain due to the infection but it was under bearable limits. When the pain increased, Dr. Mehra changed my medicine & it came under control.

I was able to resume work in 2 weeks.

I was told by Dr. Mehra as well as other acquaintances that the best cure for Herpes Zoster is in homeopathic medicine & I can say my experience has been better than other people who have suffered from this disease.
