

NAME OF DISORDER - LEUCODERMA.  
DURATION OF DISEASE -  
DURATION OF TREATMENT -  
PERCENTAGE OF RECOVERY - 60%.

~~My~~ Leucoderma is a cutaneous condition with a loss of pigmentation. Before starting Homoeopathy under Dr. Mehra's guidance I had been to several dermatologists & ~~cosmetologists~~ cosmetologists for my disorder. Due to which I <sup>was</sup> ~~had~~ misguided and I had a completely different picture about this problem. After coming to Dr. Mehra I realised the importance of health and how to live correctly so that my disease doesn't spread at a faster pace. It was difficult to bring about a lot of changes but every effort has been worth it. I would like to extend my gratitude towards the doctor who has ~~helped~~ helped me not only for this particular problem but for several others → terrible ear infections, menstrual problems, fever, tooth ache and some of which I've forgotten. Humble suggestion to all the readers is that he (Dr.) knows his subject and job way better than most of the doctors I've bumped into! So trust him and hang in there cause miracles don't happen overnight but happen when the effort is from your end and his!! Sincere thanks to the compounder's.
