Molluscum Contagiosum III

Name:- Jeshta & Naman ^{Shetty} Tel- [REDACTED]

Age:- 7 yrs & 3 yrs Mumbai

Duration of illness:- 3 months

Duration of treatment 3 months

% of recovery:- 99%

I'll I am mother of Jeshta & Naman they was suffering from skin disease called Molluscum from last June (2011). First I thought it was just ~~a~~ pimple then I asked Allopathic doctor what it is then they can't explain me exactly what was that & that pimple like thing was on my 7 yrs daughter face so I was very nervous because she is girl. Then somebody recommended me that this ~~is~~ disease medicine is only in Homeopathic. So I came to Dr Mehra then he explain me what is that & how it occurs on the body. He explained very nicely & told that it is called Molluscum. Then he started medicine for my daughter & son then within 1 month I find changes. Within three month it disappear completely. If somebody have Molluscum problem just don't do Allopathic medicine because in that there is no medicine only Homeopathic treatment is there for that. For every problem I come to Dr Mehra just surrender to him & take medicine properly.

Thanks a lot Dr Mehra

regards
P. Shetty
