

# Seborrheic Dermatitis

Nitin Patil

Tel no [REDACTED]

I was suffering from Seborrheic Dermatitis last 3 years. Initially I started with Ayurvedic treatment in the period of 6-7 months it is not affecting any more. Then I came to know about Dr. Mehara thru my colleague who was suffering from heart disease & now he is very well. I am taking treatment from Dr. Mehara from last 6 months. I am really thankful to Dr. Mehara & God that I am about 100% O.K.

It is very important to follow Dr. advices. Patient should be loyal to Dr. & himself. During this period of treatment my habitates of eating foods & living life has been improved. Dr. is following really good practice of treatment which is really helping patients to fight against diseases.

I am living at Worli As I living long Dr. help me ~~to~~ through mobile or sms to cure. Dr. didn't give me any solution to apply on skin. He healed me from inside & killing disease from its root.

Dr. is very strict during his treatment because to heal patient as early as possible. He tells truths & we have to believe on them. It is very essential during treatment to follow advices. If you follow Dr. you will heal as early as possible. I also noted that the fees of Dr. is really affordable than my previous.

"Only Follow The Dr. He will Get you to Healthy Life"
