

Urticaria

Devidas Deshpande

Tel No [REDACTED]

Suffering from Urticaria since Aug 2010. Earlier I had this problem in the 1980's - and 1990's. Then it was treated by Dr. Mehra. I had no problem till Aug 2010 when it recurred.

Duration of Treatment: Nov. 2010 till date

Presently I am about 95% cured. The recurrence of disease is very rare now since last 4 months.

During my interaction with Dr Mehra, I found his advices very well meaning and practical, - with an aim to attack the root cause of the problem rather than giving only medication.

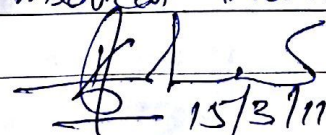

I have been visiting here once a month and seeking advice over phone if needed urgently. Dr Mehra was always available over phone and advised immediate measures to be taken.

With my experience of treatment with Dr Mehra, my belief in Homeopathy as a healing science is strengthened.

Dr Mehra is very forthright (to the extent of sounding very curt at times) but and spends enough time with each patient to offer medication as well as advice for good health.

The clinic's systems are efficient. The staff attend to calls promptly, and appointments are given on the desired dates.

Overall a very satisfying experience, and it is a very important realisation that the responsibility for maintaining good health lies with us only and we can aim at keeping healthy rather than spending time and money on medical treatment.
