

Chronic URTICARIA

NISHI PRASAD

Since last two months I was suffering from the problem of 'Urticaria'. Initially I used to rely upon "anti-allergic tabs". For the time-being I got relieved but the problem was still there.

When I came to meet Dr Sunil that time I was not aware of the magic of "Homeopathy". But since the day I consulted him, I was recovering day by day. My Present situation says that I have recovered upto 85%.

I like the way Dr Sunil treats his patients. Apart from the ~~two~~ main treatment he has changed our food-habits which somewhere is the cause of all the disease. I have got several tips from him to remain a healthy being. I'll always be thankful to him for the same.

Fee structure is also comfortable I must say because ultimately I can get rid of the disease. And nothing costs more than the health.

I will always be thankful ~~for~~ to the doctor for so much of care and attention for treating the problems.

Thanks & Regards
Nishi
