Tel no [REDACTED]

I am Anelia Fernandes. and all of a sudden I had skin rash. so I visited a general physician and took the treatment for nearly a week. There was no improvement at all. Instead it was increasing day by day it was a terrible experience. It was very severe. Then my husband thought of seeing a skin specialist since we were new in Mumbai we just came to see fortunately we saw Dr. Mehra's clinic board. and there we were, In right hands.

The moment I saw him and the way he understood my problem I was confident that I will get well soon. within 5 days I was cured. I visited him just once and then through telephonic conversation now I'm completely cured of my sickness.

Dr Mehra is a very good dr. I really trust him and his medicine.

Thanks & Regards
afale
