

Urticaria  
Veena Tripathi ( )

I'm 24 yrs. old. First time I felt the problem of this illness, which acc' to doctor is known as urticaria. Fortunately from my parents' blessings I've trust in homeopathic. ~~As~~ ~~the~~ When I met to doctor, I was feeling the pain of heat & it was like small pimples on my hand. I was very afraid, coz I'm not staying with my family as I'm a student & my family is far away from me. As I met to doctor, his patient & checking treatment especially the water checking process impress me a lot. Doctor also make me aware about the health tips & to respect me <sup>about</sup> our proper diet. And with in couple of days I improve myself, as it was initial stage.

In the end I just want to say that patiently & calmly we must listen & follow homeopathic tips which will recover & fulfill our treatment. I want to give my special thanks once again to Dr. Nehra for giving me a proper treatment.

Thanks Doctor.
