Tennis Elbow

Jyoti Singh.

When I came to the doctor I had tremendous pain in my right elbow since one and half year. I was not even able to lift a copy with my hand.

When I came to the doctor he promised me complete cure but only if I do what he says. I went according to the doctor's advice and with the help of the medication, now the pain has almost gone and I hope everything will be alright in future.

Jyoti Singh.
