

Warts.

Name: Beeta Chhvi Menon, Tel No [REDACTED]

I had a big wart on my finger (under the nail) since last one year which was a big embarrassment & some times it was painful also.

I visited Dr Sunil Mehra & he explained me about the wart & gave me a monthly medicine & an ointment to apply, the wart got vanished in two weeks time and with in a month there is no trace of the wart, it disappeared completely.

None over the medicine, the interaction with Dr Sunil Mehra boosted my confidence level in homeopathy.

Thanks a million Dr Mehra, You are a Star!!!!

Beeta
