

Chronic Bronchitis

Kaavya Vithani Age Syn. [redacted])

This is for my daughter, Kaavya. For the past two years she was suffering off & on with cough and cold and was under allopathy treatment of a Paediatrician. After necessary medication as prescribed by the doctor she used to feel improved but the problem would reoccur, and the treatment continued. I observed that the potency of medicine was increased from time to time. This brought us to wonder as to how long we should continue on higher doses of medicine in view of the reoccurring problem.

Just when we were thinking of changing the treatment, the name of Dr. Sunil Mehra was suggested. I already had faith in Homeopathy as such and decided to consult him. On my first visit I was impressed at his whole hearted efforts to understand the root cause of the problem & going deep into matters like food habits, normal food ~~and~~ routine & many other aspects of general way of life & amazing of all was his accurate diagnosis & treatment.

My daughter is now virtually rid of all problems, has gained weight, got rid of frequent throat trouble & related symptoms like cough cold & deterioration of general health. I would further like to mention that during this period of treatment, as and when we approached the doctor on phone, he would reciprocate patiently & give us necessary advice. The treatment continued for 9 months during which period his method of understanding the problem, presenting the right medicines & advice (and other cases to be taken and he always extended cooperation. My daughter has now gained overall health. I was also amazed to observe his knowledge about other schools of medicine & their effects & side effects. I am very thankful to the doctor.
