

Cold + Acute Severe Constipation

DATE 20/11/14

Hemali Adhiya.

Tel No [REDACTED]

Duration of Illness - 8 days.

Duration of Illness - 5 days.

Percentage of Recovery - 100%.

Most of us live with the belief that homeopathic treatment should only be taken to cure a long lasting illness. I myself had the same notion. I had two fears: 1) Will my treatment take a long time? 2) How will such small pills cure me?

I knew Dr. Sunil Mehra from before. In spite of that I did the mistake of going for an allopathic treatment when I faced the problem of severe Constipation. I was in pain & was restless. None of the allopathic medicines gave me any relief!! I finally called this one magician called Dr. Sunil Mehra. This time I don't ^{have to look for} need a reason to come see him, as it is anyway fun talking to him. Everyone feared that I could either have a block in my intestine or have a problem of appendicitis. But Doctor said, try these medicines for a day. I did, & believe me, I felt relief with my pains within two hours after my first dose. I was amazed with such a quick answer for my questions!! Honestly, I felt hopeless before this first dose. But soon, I was hopeful again that this is the one

person who can really cure me.

Which doctor calls a patient at 8:30 AM to ask how they are feeling? Dr. Sunil Mehra does!! I was surprised with this concern I got. With the diet he asked me to follow, & the medicines he gave, I was cured with immediate effect.

Now I continue to take care of the things I eat & the things (junk - my favourite) are poison to my body. Dumping this bad food was easier this time as these things were now said to me in the most convincing way!!

Not getting quick treatment in ~~emergency~~ situations of such emergency through homeopathy is only & only a MYTH. Don't think twice. If there's a problem be there at his clinic as quickly as the blink of the eye. If not he is available for every phone call & message & so are his compounders!

Thank you Doctor!!
