

Chronic Allergic Rhinitis

DATE 23-02-09

Mahesh C. Tiwari

Age - 51 - (M)

Complaints / Problem faced — Allergic to Cold — frequent Cough, chest heaviness, a short of Bronchitis for last 10-12 yrs. Had consulted Allopathic doctors for treatment. No permanent cure but temporary relief.

I happened to know about Dr. Sunil Mehra, practising Homeopathy through one of my friends Mr. Anuj Kumar and prompted to consult him about the above.

I visited this clinic and discussed with him the symptoms, period, earlier treatments and its effect on my type of complaints.

I am delighted to write this today, that after taking medicines from him for last 3 months, I have been experiencing 70-75% relief.

The understanding of the symptoms of the disease and prescribing right medicine is an inherent diagnostic quality in Dr. Sunil Mehra.

Discipline and restraints are required to be observed for fast cure which Dr. Mehra gives emphasis to. It is only for the betterment of

The patient himself/herself.

I can now say with full confidence that I will get 100% cure from cold and cough, heaviness in chest, and looking forward to enjoy cold drinks, icecreams etc. which had eluded me for most of the time during last ten years.

I salute Dr. Mehra for his approach towards the ~~sick~~ sick and methods of curing and caring.

One who comes to his clinic should possess the conviction to get faster cure.

(M. C. TIWARI)
