Bharat Joshi.

Duration of illness → Since 10 years.

Duration of treatment → 8 months.

Frequency of problem → 20 days in a month.

As mentioned above, I was having cold & running nose for a very long period and that too very frequently. In spite of doing many allopathic treatment again and again, the problem was the problem was not cured from its roots. Then I opt for homeopathic treatment at Dr. Sumil Mehta's clinic, they assured me that your problem will be cured. And I also saw feedbacks in this book, as you are observing right now, that gave me the strength, the trust, to cure my disease.

After that day, I followed all the guidelines and instructions given by the Doctor. The telephonic services for and convenience provided by the Doctor was upto the excellence level.

He takes care of every little thing of his each and every patient. First to After coming here, first time I got to know that papad is also one of the cause of cold and running nose. Even the compounders here are very helpful. You may feel that fees are little high but still at the end it is worthwhile. My message to other patients is "Just do as Doctor say."
