

Recurrent Allergic Rhinitis
Tonsillitis (Pus Pockets)
Fever & Pharyngitis

SRI LAKSHMI.

SHEENA (Mother).

Duration of illness → 2 years

Duration of treatment → 11 months

Percentage of Recovery → 99%.

I think the role of the patient is to follow the instruction of the doctor as far as possible. I have learnt here how to have good diet. The method of treatment is good and acceptable. The most important aspect of treatment is that doctor listens to patient carefully, any time you can call the doctor and he is ready to serve you. I personally had fear of going to any doctor especially in a city like Mumbai, but I have full confidence on Dr. Sunil Mehra. It is difficult to get such a doctor in Mumbai. I refer other patients to him. It was convenient to take treatment here and telephonic services were also good. Homoeopathy as a science I think that you may feel it is slow but it is a sure shot. My child used to be was taking Antibiotics recurrently and the problem persisted and in addition she used to feel tired and was not able to go to school. This is not so with Homoeopathic
