

Archana Agarwal. TOLL NO →

It's not long I approached Dr. Sunil Mehra for treatment. But I feel I ^{would have} known him earlier so that my other problems also could have been treated and cured easily as my problem of fissures have been cured. I had heard many misconcepts about him, like he is very strict and so on. But meeting him was a blessing in disguise. My disease which had become a major issue was cured in no matter of time just in one and a half month.

He not only cures the disease, but also has a distinct approach and concern towards his patients. I have never seen any such doctor who ~~is~~ not only treats his patient but also want them to be disease free in their lifetime. Initially we find it difficult to follow the diet ~~he~~ recommends us. But we forget that this is going us to help us throughout our life.

It's our duty to follow his instructions instead of grumbling over it. It is beneficial for us. It was unbelievable for me that my problem will be cured so easily and fast, but this was made possible only by Dr. Mehra. I have really not seen such a doctor before. If you keep belief in him and trust him, homeopathic treatment is the best. I also learnt the eating habits we cultivate are so harmful. Last but not least if Dr. Mehra takes so much pain for us, it's our duty to follow his instructions and respect him.

A. Agarwal,

DR. MEHRA - MAGNIFICANT PERSON.
