

Fissures / Piles

PP. Haridas

I have come to Dr. Sunil Mehra with a fissure after going to an allopathic Doctor and finding no effect. Dr. Mehra treated me and cured me completely within a week. Thereafter I never had that problem again. I thank him for his great service.

What I find most interesting is that Dr. Mehra advises his patients how to avoid contracting illness by changing the life style like food habits and regular exercise. I am trying to follow whatever he has advised me as far as possible even though I can't follow it completely. I hope more and more patients will take his advice and follow it and find themselves healthy rather than falling ill.

It is interesting to see a Doctor concentrating on health rather than illness. I thank Dr. Mehra and wish him all the best in life.
