Constipation

I am suffering from piles from last 5 to 7 years.
I am suffering from - Arthritis, Hernia, Dabell's
Suppurative Abscess In my mouth, I am on insulin.
I take 10 unit in the morning & 6 unit in the evening.
I get swelling on my face & body.
I started taking treatment from Doctor Meher from last 6 months. I started eating fruits as Doctor says. I am following diet.
From last 8 days I was suffering from Piles. I used to get severe pain while passing stool. With one dose of Doctor's medicine my pain went. I started eating fruit regularly in the morning. I became alright with one day. There was a time I was feeling because of piles I have operated myself. But Doctor Meher's one dose did Miracle & I became alright.

My grand daughter is suffering from Chronic cold & Cough-bronchitis & now after treatment she is so much better that even after having cold drink she doesn't fall sick.
