

Saakshi Rastogi

Tel No - [REDACTED]

Duration of Treatment: 2½ months

Recovery: 85%

I have been suffering from skin disease from the last 4½ months. For the 1st two months I was taking the normal commercial medicine for itching about which I read online. But after two months when I saw there was no permanent relief from this medicine, I decided to visit Dr Sunil's clinic. From week 1 I could see a change in my disease. Dr Sunil not only makes sure that the disease recovery is complete, he also takes care that you will ~~not~~ never suffer from it again.

Before I came here my diet consisted of more junk food, less fruits, irregular sleeping pattern. He has made me realise the importance of healthy diet & proper sleep. What I thought was once impossible or too ideal of a lifestyle, I am now working towards achieving it.

Now about Urticaria, it's at its final stage of termination, cause of his medicine as well as the diet I have started. I come here on weekly basis, get my appointment on the telephone a day before which is very convenient.

Next page

And the fees is nothing compared to the healthy lifestyle & recovery.

I definitely recommend Dr Sunil for urticaria and for better & healthy lifestyle

Regards -
