I was suffering from pimples since 14 years. Had consulted many doctors to cure my pimples. However, was never satisfied with any one of them ~~at~~ since didn't get any results out of it. My years as well as my money was getting wasted. I had left all the hopes and there was a time when I had accepted it as a part of my life. I left taking any medicines or treatment to cure my pimples. It was later in Jan, 2015 that my colleague recommended me to visit Dr. Sunil Mehra.

She was so confident about the doctor that she suggested me to visit him for my pimples treatment. When I came here was having little hopes that my pimples would not get cured. But the 1st time I met him got great positivity from him and ~~again~~ believed him that if I follow him blindly I am sure to get the results. Slowly & slowly I started putting effort in those directions. Changed my diet according to his instructions. It was difficult for me initially. However, ~~was~~ it was my trust on him that I stubbornly and strictly stick to ~~all the~~ my diet and follow all his instructions. And to my P.T.O

DATE | | |
Because of his strict and disciplined approach I got to see the results very soon. All I needed in this treatment was complete faith in him. Following his instructions has now ~~been~~ become easy since now I know its importance. He shouts or makes us understand for our own good. ~~And~~ He strives really hard to explain do's and don'ts. Once, we follow that we are 100% sure to get the results.

He believes in making his patient's life better and not just treating the ailment. Today I feel much confident only because of Dr. Sunil Mehra. My pimples are cured upto 80%. And looking forward for doctor's objective of "Spotless Face". I thank you tons doctor for everything.
