Disease - Atopic Dermatitis

PAGE No. 87
DATE 15/5/14

Name: ALPA BUBNA Tel No [REDACTED]

Patients → VED BUBNA

Name of Disease: Atopic Dermatitis (Eczema)

Cold and Cough.

Duration of Illness - 2 years.

Duration of treatment - 1 year.

Percentage of recovery - 90%.

Compound's service - friendly.

Want to start with thanking the Dr from the
bottom of my heart. Will always remember
him throughout my life.

My son (ved bubna) was suffering from skin problem from the time he was 9 months old. I was tired of putting him steroids, giving him anti allergy syrups and taking him to various skin specialist. But there was no permanent cure. Because of putting steroids he developed cold and cough and I was again tired of giving him antibiotics. This continued till 2 years.

In the middle of all this my cousin told me about DR SUNIL MEHRA. I thought of visiting, and give a try and trust me it really worked. Next page

I started with the medicine. DR. Blaiya told me to maintain diary about what he eats and when he eats. Initially I was little irritated about maintaining a child's diary about what he eats. But with his scolding you have to do it and this will really help you and it will work.

You will know the do's and don'ts of healthy eating which is very important to cure any type of disease.

In 2 to 3 months I could see the difference in his skin. Initially I used to apply steroids and ^{give him} allergy syrup ~~but~~ every day but later I switched it to alternate days and then twice a week.

In 1 year my son was totally off steroids and anti allergy syrup and because of this his cold and cough was also gone.

So you can get rid of this disease ^{only} if you follow his instructions and give regular medicines.

So please if you or your family member is suffering from eczema just follow him and he will take you in right direction.

TRUST ME

DONT LOSE HOPE HAVE FAITH IN HIM AND GO AHEAD.
GOD BLESS HIM

If you have any queries please ^{feel} free to call me any time after 2:00 pm. I am always there to help you.

My feedback would be incomplete if I don't mention this.

Even after positive response from the treatment after 6 mths I stopped coming to the Dr bhaiya because I was tired of giving him medicine.

But you will not believe Dr bhaiya himself called me thrice to come for the follow up and take the medicine because he really cared for my child and wanted him to get alright. In today's world which Dr calls you and ask you to come and take the medicine when he has line of patients outside his clinic.

But it was because of Dr bhaiya's ^{advice} and homoeopathic medicine ^{that} my son is free from this disease. Really I thank him again and I trust him completely.
