

Ringworm

Age: 23 yrs.

Sanjeevma - NEW TO MUMBAI.
CTCS-MUMBAI). (Basically from Andhra Pradesh).

I am Sanjeevamma Kasinula working in TATA Consultancy Services. I would like to convey my experiences which I had while getting cured of Ringworms.

I got this type of disease 3 yrs back and I took some English medicines to get it suppressed. But it didn't save me from the disease completely. This ~~disease~~ ^{disease} used to follow me at least once a year. This really worried me a lot. Finally this year when term came for my degree to attack me, I was in my home town - Andhra Pradesh & I used same

English medicine - Allopathy which suppressed my disease as usual. But when I came to Mumbai, this time disease didn't leave me and attacked me again. As I was in new place I was very tensed in selecting a suitable doctor. As every stranger (generally from IT) do the browse for a doctor in net, I also did the same and got to know about our Dr Mr MEHRA and then my treatment started on 24th of August - now I am almost free of it.

Doctor Mehra treated & treating me very carefully and sometimes like a father when I felt little bit depressed because of the duration disease took to leave me. He must be very courageous and bold to the doctor while taking treatment.

Thank you so much for the treatment given and care taken.

Finally I am so happy because I came to the right place. Thanks a lot.
