

Slip disc.

Rahul Singh.

Dear coming friends now you are going to be well very soon if you will follow the bank which will be suggested by Dr. Sumil Mehra. My name is Rahul Singh and my disc was slipped in year 2005 and I come to know in June 2005 after MRI in Delhi after that I have taken medical treatment for one year and slowly & miraculously it was not peaking but in every month and in one and half month I am getting pain for one and two days and it gets ok. In Year 2007 May I got job in Eureka Forbes Ltd as a ~~Real~~ Customer seals Specialist I got a bike in Oct 2007 and got that pain of Right leg in March 2008 also. but in May 2008 pain is for every day and on 24th ~~month~~ it was peaking two week and I was thinking ~~what~~ what to do and where to go.

Suddenly I remember Dr. Mehra one or two ~~time~~ time in last 6 month he was my customer for new RO water purifier at that time I have asked about my problem and he said that "मुझे 6 महीने बाद मुझसे आकर मिलो" and it was 100% Right. Now he checked me and start my treatment and I just follow what he suggest me the medicine and the Exercise and in 7 days ~~there~~ there is no pain. In between he visited two time at my Residence daily phone and my program.

So dear friend just follow the best what
will be suggested by Dr. Sumit Mehra.

You will get well soon.

Rahul Singh
