

Sunita Sheirastan , Coccydinia (travelling)
cause

In the month of Apr' 08, 2nd week, I started feeling difficulty in sitting and changing my position from sitting to standing or in changing side while sleeping. After 3-4 days of suffering with the wilder pain, I immediately came to Dr. Nehra's clinic as he was known to me and had earlier cured my family members.

To my surprise, I felt 60% relief in one week and ~~a~~ got further relief up to 80%. I can say as the time passed by. I have known and seen many people suffering from this kind of problem for long and it has been known to them after consulting many 'Doctors and experts' that this is a type of problem supposed to stay longer and difficult to cure 100%. This can well explain ~~is~~ surprise point in my statement.

I⁺ followed Dr's advice of taking two days rest. I appreciate convincing and caring attitude of Doctor towards patient's problems and am thankful to him for my speedy recovery.

I am writing this in a hope to strengthen faith ~~in~~ of patients in homeopathic treatment and Dr's curing ability.
