

# Tennis Elbow

Date: 6/09/07

- Deepak Harmalkar
- Tennis Elbow
- April 05 to Sept. 05.
- Almost at 90% during treatment and 100% soon thereafter.
- Tried to adhere doctor's advice best of my ability. Also tried to keep my diabetes also under control by regular exercise for faster results.
- While giving the treatment I was put to lot of convenience by way of consultation on telephone, medicines were <sup>allowed to</sup> collected by the family members etc.
- HOMOEOPATHY, it seems has a best cure on ailment like tennis elbow which is difficult to cure by allopathy.
- Doctor has a best attitude towards the patient and takes personal care to understand the improvement even by telephoning.
- It seems doctor has a fairly good knowledge of other systems of medicines and ~~the~~ <sup>also</sup> ~~shortfalls~~ in the same.
- The doctor is best for the treatment of ailment that I suffered and hence I am again back to him for treating my joint.
- I wish the doctor all the best for his endeavours in curing patient in various ailments.
- I thank him very much.
